

# Information Literacy Summit 2005

## Learning from Experience, including best practices and other kinds of learning experiences

Bringing together experts; middle school, high school, community college, and university librarians; and other educators to share and learn. Presentations and discussions provide participants with the strategies needed to prepare students to effectively and efficiently access, evaluate, and use information.

The 2005 Information Literacy Summit is sponsored by NILRC, the Network of Illinois Learning Resources in Community Colleges, and is funded as part of *Information Literacy for the 21st-Century Learner: Preparing Students to Learn for Life*, a National Leadership Grant from the Institute of Museum and Library Services (IMLS).

To ensure participation across Illinois, the Summit is held three times: at Moraine Valley in the north, at Illinois Central College in the middle of the state, and again at John A. Logan in the south.

**9:00 a.m. – 3:30 p.m.**

(Continental breakfast begins at 8:30. Lunch will be provided.)

---	---	--

**Featured speaker:** Beth Woodard, Information Librarian and Associate Professor, University of Illinois, Urbana/Champaign

### Breakout sessions:

- ◆ An introduction to the NILRC IMLS information literacy assessment instrument
- ◆ Using focus groups to supplement traditional assessment of information literacy
- ◆ Creating information literacy learning resources for at-risk high school and college students
- ◆ Other breakout sessions vary by location and may include:
  - Distance learning and information literacy: challenges and solutions
  - Using WebQuests to encourage higher level thinking
  - Collaborating on information literacy beyond school walls

### Who should attend?

- ◆ Junior high/middle school librarians and faculty
- ◆ High school librarians and faculty
- ◆ College/university librarians and faculty
- ◆ Others interested in information literacy in schools and higher education

**Space is limited, so register early!**
